

SEEZAR YASEEN

Manchester / Remote • 07950 705252 • sizar.dusky33@gmail.com

PROFILE SUMMARY

Humanitarian operations leader with a decade of international experience directing projects across volatile and post-conflict zones. Proven senior management background specialising in remote team leadership, multi-stakeholder co-ordination and community liaison frameworks. Adept at optimising field workflows, ensuring strict safety compliance and delivering vital programmes for international NGOs.

CORE COMPETENCIES

- **Operations and leadership:** Team building, remote management, project co-ordination and capacity building
- **Communications:** Cross-cultural collaboration, translation and interpretation (English, Kurdish and Arabic)
- **Community liaison:** Explosive Ordnance Risk Education (EORE), Non-Technical Survey (NTS) and impact assessments
- **Problem solving:** Critical thinking, data collection, field assessments and risk mitigation

PROFESSIONAL EXPERIENCE

Community Liaison Lead

Mines Advisory Group (MAG)

Palestine (OPT) / Remote

March 2026 – May 2026

- Remotely managed and co-ordinated the delivery of Explosive Ordnance Risk Education (EORE) to communities across Gaza and the West Bank.
- Trained, mentored and supervised national CL co-ordinators and field consultants operating within volatile areas.
- Managed localised partner organisations, preparing adaptive training packages, lesson plans and instructional materials.
- Developed clear reporting frameworks and operational guidelines to ensure all field activities adhered to MAG security and safety protocols.

Various Projects

Independent Consultant and Professional Development

Manchester / Remote

July 2024 – February 2026

- **Business advisory initiative:** Partnered with former colleagues to advise commercial businesses on how to successfully hire, support and integrate staff from refugee and immigrant backgrounds.
- **Charity engagement:** Supported local charity initiatives to build community integration programmes and improve social inclusion for diverse groups.
- **Security trainer development:** Undertook advanced instructional preparation to become a HEAT instructor, learning to train and safeguard personnel for high-risk field deployments.
- **Exhibition and technology project:** Worked part-time with a VR exhibition to learn the practical production process and explored how virtual reality and AI can engage audiences in humanitarian work.

Community Liaison Manager

Mines Advisory Group (MAG)

Ukraine

September 2023 – June 2024

- Led community participation initiatives as a member of the senior management team, integrating protection mechanisms into regional mine action frameworks.
- Directed the recruitment, onboarding, training and daily performance metrics for a regional community liaison team.
- Managed quality control across localised risk education campaigns, complex Non-Technical Surveys (NTS) and

strategic impact assessments.

- Advised executive leadership on operational best practices and managed data workflows to support evidence-based field interventions.

Employment and Integration Advisor

Manchester, UK

Breaking Barriers

September 2023 – March 2024

- Managed a caseload of over 30 refugee clients, helping them access professional employment, training opportunities and higher education.
- Conducted virtual and face-to-face field assessments, translating client progress into clear progress updates and reports for key funding stakeholders.
- Organised multi-agency meetings, collaborating with UK local authorities and commercial corporate partners while supervising local volunteer staff.
- Provided vital linguistic support, utilising native fluency in multiple Kurdish and Arabic dialects to bridge communication gaps for vulnerable individuals.

Community Liaison Officer and Supervisor

Iraq

Mines Advisory Group (MAG)

September 2016 – August 2021

- Supervised and trained a multilingual field team, building relationships with local governance, civic authorities and international NGOs.
- Delivered risk education sessions and gathered geographic and situational field data regarding suspected hazardous zones.
- Worked as the principal operational interpreter for high-profile diplomatic delegations, corporate executives and international journalists.
- Documented, catalogued and mapped danger hazards to support national mine clearance prioritisation models.

Surveying Technician

Iraq

Zaweta Town Council

January 2015 – February 2016

- Accomplished technical civil tasks including mapping, municipal land division and structural project reporting.
- Supervised on-site survey execution teams and translated regional government documentation between English, Arabic and Kurdish.

Survey Engineer

Iraq

Kurk Construction Company

October 2014 – January 2015

- Managed building and street infrastructural layouts using specialized tools including levels, theodolites and total stations.
- Developed detailed road network plans utilizing AutoCAD land desktop software systems.
